**If you are billing a  
'bunch' of claims!**

Almost every day we get a call from our clients asking if we can bill Medicaid, Blue Cross or their Commercial claims. The answer is YES!

When we do our monthly claim invoicing we notice that many clients are doing a lot of DMERC claims but are not billing other payors online. ?? We don't understand why??

Why spend the extra time and money to double enter into another electronic program or printing / mailing 1500 forms? You know that payment is faster with electronic claims,,, we have been billing Medicaid's, Blues and Commercial payors for over 5 years with great success! We will be glad to discuss the process and get you setup to bill. Plus we started working with clients to retrieve the ERNs for these payors so that processing payments will be as easy as it is for the DMERCs.

*Give us a chance*, it will make your business more efficient and profitable. For a list of plans we can bill go to [www.dmeffree.com/plans we bill.htm](http://www.dmeffree.com/plans_we_bill.htm)
